CERTIFICATE OF CALIBRATION

Model Number MS-2712E SERIAL NUMBER 1237203

DISCRIPTION: System Analyzer REF NUMBER-1016

EDWIN BRAND

CUSTOMER / COMPANY NAME

CALIBRATION EQUIPMENT USED:

Model Number	Model Description
HP-8901A	Modulation Analyzer
HP-8656B	RF Signal Generator
FLUKE 8840A	Digital Voltmeter
S-1339	RF Millivolt Meter
HP-8901A	Measuring Receiver
FLUKE/SB4380007	100B Calibration
HP-436A	Power Meter

This Certificate that above instrument has been calibrated utilizing the equipment standards listed Above by method of comparison and or measurement against of which trace has been established To the NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY (N.I.S.T.) within the limitation Of the institute's calibration services and or have been derived by the ratio type of self calibration Techniques and or have been derived from accepted values of natural physical constants. The above Instrument was found to be operational and in compliance to instrument specifications as tested the date Listed below.

TEMPERATURE 72 RELATIVE HUMADITY 15%

CALIBRATED DATE: 12-30-16

CALIBRATION DUE DATE 12-30-17

CERTIFIED BY: PAUL ZEPPA
